

Preparation for Bed Bug Treatment

Bed Rooms:

1. Remove all bedding including any mattress pad and place in plastic trash bags. **(nothing is to be placed on the bed or mattress except empty luggage)**
2. Pick up all clothing and items from floor including the closet floor and beneath bed and place in plastic trash bags.
3. Remove items from dresser drawers and place in plastic trash bags.
4. Completely clear closets and place items in plastic bags.
5. Move all furniture 3 feet away from walls.
6. All loose items must be cleared from the tops of dressers etc.
7. Empty any suitcases and luggage and place on bed.
8. Please put all bagged items in kitchen or bathroom.

Living Room:

1. Pick up all clothing and items from floor and place in plastic trash bags.
2. Move all furniture 3 feet away from walls.

Vacuum all mattresses and box springs.

Vacuum all carpet especially around baseboards.

Vacuum all furniture especially crevices in upholstered furniture.

Take vacuum bag to dumpster.

Launder all items in plastic bags immediately after treatment.

Re-entry:

1. All people (children 6 months or older) and pets must be out of home for a minimum of 2 hours after treatment.
2. We recommend children less than 6 months old be out of home for a minimum of 24 hours.
