

Preparation for Flea Treatment

Occupied Unit:

1. Vacuum all rugs, carpet, furniture, especially between and under cushions. (dispose of bag)
2. All floors areas must be cleared of objects. (toys, shoes, clothes etc.)
3. Mop all vinyl and concrete floors.
4. Remove pets and have professionally dipped.
5. Launder all household bedding including pet bedding.

Vacant Unit:

1. Trash and vacuum unit thoroughly
2. If carpet is to be cleaned within 30 days, do so before treatment

Re-entry:

1. All people (children 6 months or older) and pets must be out of home for a minimum of 2 hours after treatment.
2. We recommend children less than 6 months old be out of home for a minimum of 24 hours.

Extended Vacancy:

After treatment vacant unit must be vacuumed every other day
